Design Series

Better by design

The complete Cloudtap® package, built from the ground up for Aussie homes and Aussie water. The Design series delivers a bespoke, fit-and-forget experience for users & installers.

-  Tailored to your home and water
-  Pre-assembled and pre-tested
-  UV-resistant cover (custom colours)
-  Choose from 40+ configurations
-  Optimise for mains, rain, or bore water
-  Easy DIY filter changes with transparent pricing & schedules

Essential Series

Simply better

Better water from every tap, hose, and shower head in your home—all from one simple, reliable, affordable system. Cloudtap®'s Essential series is all about simplicity, filtering as many headaches out of your life as possible.

-  Simplicity meets flexibility
-  Premium performance at entry level prices
-  Compatible with mains, rain, or bore water
-  Configurations for filtering down to 0.5 microns (140x finer than a human hair)
-  High-capacity carbon filters to fix foul tastes without losing pressure
-  Custom filter sets tailored to your home and water (targeting chlorine, lead, limescale, etc.)

Filter your water

Customise any 3-stage Essential or Design Series system with filters tailored to your home and lifestyle. We know there's no one-size-fits-all solution for Aussie water, so Cloudtap® gives you the flexibility to build your own better water system with cartridges that are tried, tested, and tweaked for Australian conditions.

Mains

0.5-micron silver impregnated antibacterial carbon filters for rainwater tanks

Tanks

10-year warranty

Order your annual filter replacements from Cloudtap. Stick with the same type of filters each year, or swap something out for a new level of filtration—either way, you'll get a bundle discount for buying all three together.

As long as you change your filters on time, Cloudtap will support your system with a 10-year warranty*.

*Terms & conditions apply. See cloudtap.com.au for full warranty details
